RE: Patent Declaration and Assignment A8563

Dear Adarbad,

Enclosed is a copy of our patent application entitled "Social Network of Identities and Query Method Therefor" International Patent Application No. PCT/US2004/018933, which, as you know, was prepared and filed while you were at EPOK, Inc. We have filed a national stage patent application in the U.S. for this invention and the U.S. Patent and Trademark Office (USPTO) requires all of the named inventors to sign a Declaration stating they are the true inventors of the subject matter being claimed. Also enclosed is an Assignment document in which each of the inventors assigns the rights in the invention to Ayman LLC.

Please read, sign and date the enclosed Declaration and Assignment documents and send them back, preferably by email to Andy.Ireland@epok.net and the originals by mail or express carrier. Please send the signed documents back to me so that I receive at least a copy of them no later than December 4, 2006 as we must submit the Declaration to the USPTO no later than December 5, 2006.

Sincerely,

Nigel Simmons

Nive, Adarbad,

Happy New Year - I'm still trying to reach Adarbad. We had a brief exchange a couple months ago - but then lost contact.

If you have a new address, or can forward this - please do.

thanks, Nigel Simmons

Folks,

The patent process is fairly lengthy, and some applications were started during the period that Adarbad Master was with us.

We now need his signature on some documents in order to move forward, but have been unable to get a response from him. I've sent mail to his Email address, and sent packages both to his previous home, and to India. As part of the process of tracking him down I'd like to ask if any of you are in contact with, or have current contact information for, Adarbad Master.

If so, please return the information to me, or alternatively ask Adarbad to contact me at my Epok Email address.

thanks in advance,

Nigel Simmons

Hey Adarbad,

Hope everything's going well.

I'm still trying to complete a patent for which you are an inventor. In particular, I need a decision from you about whether (or not) you're willing to sign said patent.

If no - no problem - just send a message with that intent. If yes - then let's organize a fax/scan method.

Unfortunately, limbo means I has to pursue you for eternity!!
